### **Model 2300 QC**

26 AMP hours @ 10 Hour Rate  
2300 AMPS Peak Current  
Available with separate trolley  
19.2"x7.5"x11.5"  
69 LBS. Complete

All In One air portable/carry-on  
START PAC with built in chargers,  
power plug and cables.

Units are 24/26 VDC output, with  
universal chargers that will accept  
90-240 VAC 50/60 hertz.

The new patent pending **Start Pac 2300QC** has a separate removable battery that can be changed in 15 seconds. This feature allows the user to change batteries in the field without needing to send the Start Pac back to the shop or Manufacturer.

The **Model 2300QC** will start turbine or piston engines up to 1500 horse power and give four to six starts between charges. This unit has a dual redundant 4 amp chargers.. When plugged into an AC source, 8 amps at 28VDC, is available for maintenance functions without depleting the batteries. Recharge time is approximately 3-1/2 hours. Certain aircraft will allow the ship's generator to back charge a GPU. In this manner, Start Pac can be recharged in the field without an AC source indefinitely.
